**If an assessment objective has been omitted at subject cohort level please briefly outline the reasons why:-**

**Unit 2B – The Changing Economic World has not been taught to a depth or quality to enable valid assessments to have been made.**

**The Year 11 mock (December 2020) was only sat by 3/13 students due to isolation.**

**Outline the rationale for the choice of assessment evidence used, i.e. why the evidence above was used and how it supported the grading decision:**

**The mark book shows evidence of the initial baseline assessment and target grade for each student. The mark book also tracks the geographical skills covered in class and for HW for this time period. There is also teacher assessments that have grades attributed to some of the CW and HWs. Therefore, it shows evidence of performance over time at the start of the course.**

**Following the return to school on 8/3/21 in every lesson evidence under high control has been gathered for all units that have been taught face-to-face including a mock exam. All of the questions have been from past papers and marked using the AQA mark schemes.**

**All exam responses have been marked and moderated by a colleague from Thomas Telford School who has been an examiner to ensure they are in line with a larger cohort of students.**
